What's New in the Easy ClipBoard?

Easy ClipBoard is an application that helps you store text clips from any application for reading later or pasting into other applications. It is suited for everybody, not just for programmers. The highlights of this application are: *

There are no ads * Easy to use and small * You can import from the clipboard as well as export to the clipboard * The main window is customizable * Features like favorites, tags, history and more There are two views. One is a standard

list and the other one is a grid. The list shows a list of items with a single click you can quickly move between the list and the grid. If you want to be able to instantly paste clips from any application you may want to choose the Import option

and add any application that has a plugin. By installing the application plugin you will be able to import clips from any application that doesn't have its own plugin yet. The plugin will be installed when you open the application. There are three

new features that have been introduced in the new version: * The application will now save history and favorites for the user * You can send notes by e-mail * You can pin the notes to the top of the list The application has the following

features: Easy ClipBoard is compatible with the following programs and Windows version: Windows 98, Windows Me, Windows 2000, Windows XP You can also export clips from other applications to Easy ClipBoard in this version.

Just choose the options you wish and you will get a file for later export. The installation file comes in.exe format and can easily be installed. When you open the application the default icon will be shown. However you can change the icon by right

clicking on the application's icon and choosing "Edit properties" If you can't find the options you need, check the right side of the main window for the help and video. Check the right side of the main window for the options and help. You can

also check the Help and video at the right side of the main window. Important note: If you don't like the look of the window the options can be easily changed. The default option is the entire window. You can easily change the look

and layout by clicking on "Appearance" or on the "Options" button. The default looks and layout can be changed to your liking by clicking on "Appearance" or on the "Options" button. You can also enable/disable the options like history,

favorites, and simple list view. Simple List view: Favorites view: You can access your notes in a grid view. The notes will be sorted into categories and the notes will be displayed in one long line. You can easily edit the notes and sort the
